

TEP CalPhos II

GENERAL INFORMATION:

Increase your plant available phosphate with TEP CalPhos II. This three-way mixture of Leonardite, rock phosphate and a granulated calcium product provides a unique dry blend for the soil. Humic acids may improve micronutrient uptake in plants whereas calcium and phosphate will help improve plant growth.

USE DIRECTIONS:

TEP CalPhos II can be applied to all crops including trees and vines, vegetables, row and field crops.

Apply 100 to 500 lbs per acre for most crops.

For application rates suitable to your geographical area and soil type, please contact TEP, Inc. at (559) 871-4565.
