

## Amendment Overview: **Plant Nutrition**

### **TEP Proven**

A unique blend of Humic Acid, Kelp, and Potassium, TEP Proven is the perfect cornerstone for every fertilizer program. With improved yields, quality, and the overall health of plants, TEP Proven can take your crops to the next level.

### **TEP BioMax**

Designed to activate and supplement natural microorganisms in the soil, the TEP BioMax improves soil structure, water penetration, holding capacity, seed germination, and root growth. The addition of this product will allow plants to utilize the complex chemicals in the soil. TEP BioMax is a natural and organic soil activator.

### **TEP wOrks (Organic)**

TEP wOrks is a unique blend of Humic Acid, Seaweed Extract, and Potassium. The application of this product may aid in the nutrition and the uptake of micronutrients in the plant.

### **TEP Humic 8% (Organic)**

Derived from our TEP Leonardite, this high-grade Humic Acid improves the overall root growth and soil structure.
